

Storyboard & Shot List

Plan your shots before you film — a few minutes of planning saves a lot of re-filming.

Project Title: _____

Team Members: _____

Story / Topic (math activity or scene): _____

Shot List

Fill in a row for each shot, in the order you plan to film them.

Shot #	What's Happening	Location	Notes (angle, props, dialogue)
1			
2			
3			
4			
5			
6			

Filming Tips

- Shoot **horizontal** (landscape) — turn your phone sideways.
- **Hold steady** — brace your arms or rest the phone on something solid.
- Get **close** to your subject; don't rely on zoom.
- Film in **good light** — face toward windows or light sources, not away from them.
- Record a little **extra** before and after the action — you can trim it in iMovie.

Before You Submit — Checklist

- Video is between 30 seconds and 2 minutes long
- Clips are trimmed and arranged in order
- At least one title/text card explains the project
- Transitions used between clips
- Exported and saved / turned in
